BATTERY-POWERED ELECTRIC SCISSORS

Features

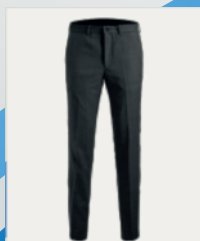

Battery-powered electric scissors with 70mm octagonal blade.

With only 1163g weight (including battery), this scissors uses a modern lithium-ion electric battery motor.

The new adjustable guard guarantees maximum safety when cutting.

- 70mm octagonal blade
- 4.5 Ah battery
- Low weight 1163g
- Battery status
- Led light
- Push button sharpener
- Blade protection
- Charger included

70DC

BATTERY-POWERED ELECTRIC SCISSORS

Blade

70mm octagonal blade capable with 35mm cutting capacity. The push button sharpener allows you to revive the cutting edge of the blade in less than ten seconds, without disassembling it.

Battery

The latest generation rechargeable battery works with lithium-ion technology and is capable of developing 4.5 Ah, 110-240V DC10 Max 12V.

Materials

It is capable of cutting soft flexible materials up to a maximum thickness of 35 mm such as carpets, clothes and similar materials. This is why it is widely used in the textile, technical textile and composite materials sectors.

Specs

Model	70 DC
Blade Diameter	70mm
Blade Speed	1000rpm
Cutting Capacity	35mm
Battery	4,5Ah
Weight	1163g
