100 CB

BATTERY-POWERED ELECTRIC BENCH CUTTER

Blade

100mm octagonal blade has a cutting capacity of 30mm. The push button sharpener allows you to revive the cutting edge of the blade in less than ten seconds, without disassembling it. The new fixed protection guarantees maximum safety during cutting.

Double battery

The latest generation battery works with lithium-ion technology and is capable of developing 5.2 Ah 110-240V DC10.8V Li-Ion.

Pacco batteria (2 inclusi)
5800mAh

Materials

This scissor uses a modern electric battery motor, it is capable of cutting flexible soft materials up to a maximum thickness of 30 mm such as carpet, clothes and similar materials. This is why it is widely used in the textile, technical textile and composite materials sectors.

Specs

Model	100 CB
Blade diameter	100 mm
Blade speed	800 rpm
Thickness	30 mm
Battery	5,2 Ah
Weight	2000g
