LONG ARM ZIG-ZAG

Features

Single needle long arm zig zag sewing machine with puller for extra heavy duty materials. This machine adopting connecting rod for thread take-up and shuttle hook, bottom feed mechanism. With pneumatic foot lifter and pneumatic reverse sewing that can reach 20mm. Excellent stitch pattern and constantly tight stitch formation, even when sewing with thick threads in heavy weight material. Adopting the large barrel shuttle hook which increased bobbin capacity, even with thick threads. Extra large working space make sewing operation easily. Perfect for sewing sails.

- Zig zag
- Big operation space
- Barrel shuttle hook
- Pneumatic bartack and footlifter
- Extra Heavy-Duty
- Puller (P)

LONG ARM ZIG-ZAG

Zig-Zag

Zig-zag machine with a stitch length of up to 10mm and a throw width of up to 12mm. Perfect for heavy-duty materials.

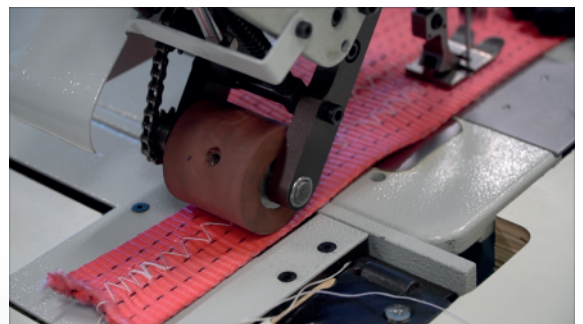

Long Arm

The long arm expands the workspace by simplifying sewing operations on bulky material such as sails.

Puller (P)

The machine is equipped with bottom feed mechanism, and top puller feed for very heavy-weight materials.
