DIGITAL BUTTONHOLE

Touch Screen Panel

Touch screen panel easy and intuitive to use thanks to the icons and descriptive parameters and settings you do not need to open the manual. You can select various types of buttonholes (31 types pre-installed).

Multi-cut

Automatic multi-cutting system: you do not need to change the knife but simply set the length of the buttonhole from the panel and the knife will descend repeatedly to obtain the required length.

All integrated

The main motor is built on the main shaft, reducing vibrations and optimizing silence and energy consumption. The control box is also integrated into the machine head: it makes assembly quick and easy.

Specifications

Model	1790D
Buttonhole width	5mm
Buttonhole Length (Knife Size)	41mm - knife: 6.4 - 31.8 mm (1/4" - 1-1/4")
Max speed	4200rpm
Needle type	DPx5 #11J - #14J
Footlifter height	14mm (17mm)
Tension/Consumption	220-240V/1000VA
Weight	60Kg
